

# Jun Xie

Brisbane, QLD 4066 | +61450685770 | [chuntsexj@gmail.com](mailto:chuntsexj@gmail.com)

## OBJECTIVE

---

Experienced full-stack developer with a strong background in Agile methodologies, specializing in both web and mobile applications. Proficient in creating efficient backend solutions and intuitive frontend interfaces. Skilled in Java, JavaScript, TypeScript, Python, and Swift. Familiar with SQL and NoSQL databases.

## EDUCATION

---

### Master of Information Technology

University of New South Wales, Sydney, Australia

Sep 2022 - Jan 2024

### Bachelor of Software Engineering

Monash University, Melbourne, Australia

Mar 2018 - Jul 2022

## WORK EXPERIENCE

---

### Software Engineering - Intern

Fillmula Inc., Guangzhou, China

Dec 2021 - Jun 2022

- Participated in the development and maintenance of an open-source ORM project, responsible for optimizing data modeling, validation, and CRUD operation logic.
- Improved data validation rules and model design to enhance the framework's performance and scalability in handling complex data structures.

### Full-Stack Developer - Internship

Weilang Network Technology Inc, Guangzhou, China

Dec 2020 - Mar 2021

- Collaborated with clients to define requirements and developed backend solutions, including API development for data storage and retrieval, resulting in a 29% increase in efficiency.
- Contributed to frontend development for web and iOS applications, visualizing data based on user specifications.

## ACADEMIC PROJECTS

---

### Mobile Application For Supermarket

- Independently developed a mobile application to streamline online order management for Asian supermarket, enhancing operational efficiency using HTML, CSS, and JavaScript. The application has been deployed and is actively used by stores in Australia.
- Implemented key features, including user order uploads, order status modifications, and customer order retrieval.
- Utilized a NoSQL database for data storage, ensuring flexibility and scalability.
- Integrated local caching to enhance user experience by efficiently managing account information.

### Web-Based Solution for Best Practice Medical Software

- Utilized pymysql to execute SQL queries, enabling interaction with a Windows SQL Server database used by the Best Practice medical system.
- Developed SQL queries based on client requirements to extract necessary data from the Best Practice database.
- Built RESTful APIs using APIFlask to handle data requests and facilitate seamless communication between the backend and frontend.
- Integrated backend data with a React frontend, displaying information in user-friendly formats such as tables and graphs.

## Diverse End-Users Research

- Conducted comprehensive surveys and literature reviews to identify biases among user groups.
- Developed a web application with features designed to provide developers with insights into supporting special user groups.
- Utilised Flask for backend development to create APIs, and connected to MongoDB for data storage, managing detailed information on various user groups.
- Visualised data fetched from the backend into a user-friendly interface using React.
- Presented research findings and application development in a paper at COMPSAC 2022.

## Portal Website For VMCH

- Designed and developed a high-fidelity interactive prototype using Figma, tailored to meet specific client requirements.
- Conducted data extraction and analysis from client-provided databases to ensure accurate and relevant information was utilized.
- Implemented the frontend using WordPress, meticulously aligning with the Figma prototype to provide a seamless user experience and precise data presentation.

## SKILLS

---

### Technical Skills:

- |               |            |
|---------------|------------|
| • Python      | • Java     |
| • JavaScript  | • React.js |
| • Swift       | • Node.js  |
| • Flask       | • MySQL    |
| • RESTful API | • HTML     |
| • MongoDB     | • CSS      |

### Interpersonal Skills:

- |                   |                     |
|-------------------|---------------------|
| • Collaboration   | • Adaptability      |
| • Communication   | • Time Management   |
| • Problem Solving | • Critical Thinking |

## INTERESTS

---

Swimming, badminton, video games, and fitness.
